

HACCP Compliance Statement

Subj:	<i>Streptococcus thermophilus</i> Powder
--------------	--

To whom it may concern,

At Creative Biolabs, we are dedicated to ensuring the safety and quality of the probiotic ingredients products we provide to our valued customers. All our probiotic ingredients products are produced in facilities that adhere to the globally recognized Hazard Analysis and Critical Control Points (HACCP) system. This ensures that our probiotic ingredients products meet the highest standards of food safety and quality, consistently complying with international best practices. We continuously monitor and verify compliance to maintain the integrity of our probiotic ingredients products.
